easykey®

Software Option Package 1: Finance and Statistics  
– **the perfect overview over the entire fleet**

# All Costs at a Glance

Europe's  
**#1**

VDI interface  
ready

## Software Option Finance

The software option Finance of the Mobile Easykey Software provides an accurate overview of the costs for each vehicle. The usage hours are set in relation to the costs.

You can enter and evaluate costs in various categories. The module is customisable. Digital invoices from many manufacturers can already be imported. With various alarms, you can be warned at any time, if anything "runs out of control".

## Software Option Statistics

The option software statistics displays prepared, visualized statistics that are automatically updated in the background with each new logbook entry. This gives you an up-to-date status of your fleet at all times. All graphics and raw data can of course be exported and used for presentations or further processing.

| Modul   | Monat        | Kostenart      | Betrag   | Ignorieren | Rechnungsnummer | Rechnungsname         | Teilrechnung | Rechnungsdatum | Gesamtbetrag | Berechnung | Firma | Person           |
|---------|--------------|----------------|----------|------------|-----------------|-----------------------|--------------|----------------|--------------|------------|-------|------------------|
| SZ 0002 | Februar 2017 | Wartungskosten | 387,00 € | Nein       | 451             | Wartung 2500h         | Nein         | 07.02.2017     | 387,00 €     | Sofort     | Mulag | Peter Kondas     |
| SZ 0003 | Januar 2017  | Wartungskosten | 158,97 € | Nein       | 364             | Wartung 3000h         | Nein         | 14.01.2017     | 158,97 €     | Sofort     | Mulag | Konstantin Hudon |
| SZ 0003 | Oktober 2016 | Wartungskosten | 201,31 € | Nein       | 291             | Wartung 2000h         | Nein         | 20.10.2016     | 201,31 €     | Sofort     | Mulag | Max Müller       |
| CT 0005 | Oktober 2016 | Wartungskosten | 197,70 € | Nein       | 410             | Wartung 1500h         | Nein         | 21.10.2016     | 197,70 €     | Sofort     | Mulag | John Meyer       |
| CT 0005 | August 2016  | Wartungskosten | 112,10 € | Nein       | 316             | Wartung 1000h         | Nein         | 24.08.2016     | 112,10 €     | Sofort     | Mulag | Max Müller       |
| CT 0005 | August 2016  | Gewaltschaden  | 111,78 € | Nein       | 268             | Gewaltschaden Spiegel | Nein         | 04.08.2016     | 111,78 €     | Sofort     | Mulag | John Meyer       |

## Monthly Update Reports

In coordination with the software module Statistics Live, you will receive graphically edited calendar-monthly updated reports at a glance. If desired, a direct comparison can be made between vehicle types and/or manufacturers.

You can choose between individual vehicles, vehicle groups or entire locations. The more data is entered, the more clearly a trend can be foreseen. This makes it easier to make decisions for purchases, replacements or repairs. All this is done automatically.

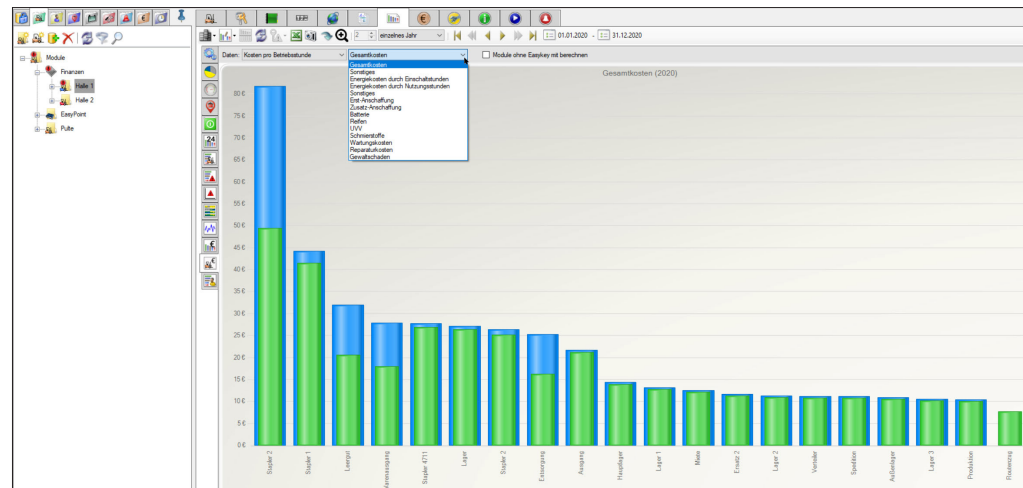

defined cost types and cost units. From the data, the software automatically calculates a financial status – depending on your requirements for hours of operation and/or hours of use of your fleet. The manual entry of costs and invoices is just as possible as an automatic import via defined interfaces.

## Document Management

With the document management integrated in the Mobile Easykey software, you also have all relevant documents in the right place and, if required, immediately at hand.

## ERP Interface

Data can be automatically or manually imported into the finance tool from any ERP when exporting is possible – via CSV file or REST-API interface.

## Cost Types and Cost Units

With the software module Finance you can manage investment costs, depreciation, rental, leasing, full service, costs of machinery breakdown in-surance, damage, repairs, main-tenance, UUV or any individual

| Modul   | Rechnungsname         | Rechnungsdatum      | Firma | Rechnungsnummer | Teilrechnung | Person           | Betrag     | Kostenart       | Berechnung | Rate       |
