-Protection Module

Fleet Management –
in potentially explosive
areas

Certified safety

Our technology is tested and certified according to the latest standards!

- Compliance with ATEX-Directive 2014 / 34 / EU
- Can be used in zone 1 (gas) 21 (dust)
- Marking according to ATEX: II 2G IIC T4 Gb; II 2D IIIC T85 °C Db
- Marking according to IEC / CENELEC: EN IEC 60079-0:2018 (general requirements), EN 60079-1:2014 (pressure proof encapsulation), EN 60079-11:2012 (Intrinsic safety), EN 60079-31:2014 (Protection through housing)
- We recommend using Mobile Easykey ATEX-transponders
- Your own transponders (e.g. factory ID cards) can be used

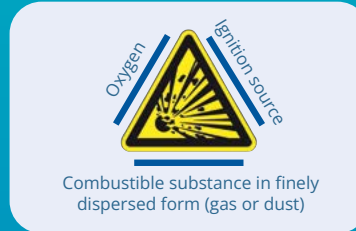

Safely used by our customers

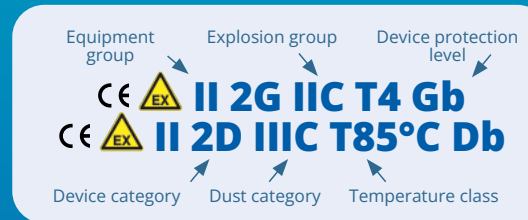

Interesting facts about EX-protection

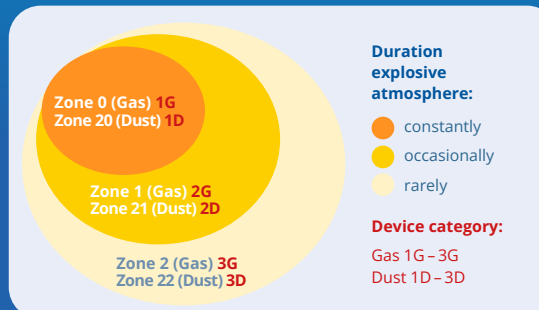

Explosion triangle

How do I read the ATEX- description?

EX-zones at a glance (Explosion group II)

Premium Equipment

The explosion protection version combines all the advantages of the latest generation of Mobile Easykey modules with the safety equipment necessary for explosion protection operations:

- Access control
- Digital, dual Crash Sensor, which detects the conditions in operation during a „learning trip“ and is thus perfectly adapted to the respective operating conditions
- Extensive analysis options for optimising the vehicle fleet
