

Modular fleet management
for your intralogistics

mobile)))
easykey®

Speaking of yellow, orange, red or green

Manufacturer?
Independent!

Your benefits

- ✓ We don't sell forklifts: With our software, you get **"unadorned" analyses** of the efficiency of your fleet.
- ✓ We do not sell forklift service: **Maintenance intervals** are calculated according to hours of use and not according to cut-in hours.
- ✓ We can **really equip any device** (not just forklifts!) from any manufacturer – fully equipped with all the features of our software and hardware.
- ✓ With Mobile Easykey you have **one system** instead of several from different manufacturers.
- ✓ Mobile Easykey allows you to **compare** the cost-effectiveness of similar types of devices from **different manufacturers**.

- ✓ Your **data stays with you in-house** and does not end up in the cloud of a globally active corporation.
- ✓ Our hardware lasts longer than your forklift. **Converting** to a new one is not a problem. It doesn't matter if you choose yellow, orange, red, green... buy.
- ✓ Speaking of yellow, orange, red or green: Many well-known manufacturers allow you to order **Mobile Easykey ex works**.
- ✓ Alternatively, many manufacturers offer the Mobile Easykey or **VDI-interface** ex works – for an absolutely uncomplicated retrofit.
