

Modular fleet management
for your intralogistics

ELS scanner app for battery monitoring

Forklift batteries
*Keep an eye on it
anytime and anywhere*

✓ Electrolyte level

Battery management

Simple, without major investment

With the new Mobile Easykey app in combination with the Battery Tool 2, you can keep an eye on the electrolyte level and the health of your forklift batteries at all times – without the need for a full MEKM software license.

- ✓ Quick connection with the Battery Tool 2
- ✓ Early detection of maintenance requirements & cell damage
- ✓ No MEKM software required
- ✓ Available for Android

The app is designed to be so intuitive that anyone can use it. Simply open it, connect, and keep an eye on the battery status.

Download it now from the Google App Store and prevent fleet failures before they happen!
